Aspiring to be one of Mohali's leading luxury developers, we believe that architecture has the power to enrich our lives like nothing else can. Efficiently managed and executed by our in-house team of experts to match Horizon's exacting standards, we work closely with our network of top artisans and construction craftsmen who value fine workmanship as highly as we do. In terms of aesthetics, location, material or workmanship nothing but the world's very best works for Horizon Group, customers – you!

when the built
form turns into an art

Good design inspires us. We believe that the built form is an art that must reflect the sensibilities of the occupants who are eventually going to live in that space.

Instead of seeing architecture and construction as two separate processes at Horizon Group we see it as a unified, seamless activity, right from the onset of a project to the finish, resulting in smart, streamlined outcomes.

Throughout a project's building journey, our team is guided by the aspirations of our valued customers, who are going to live in the projects that we aesthetically conceive and deliver to them.
