MOMENTOUS

MESMERISING

A PROJECT BY GILLCO GROUP

Gillco is a name synonymous with the pride of Tricity and the heart of Punjab. For over 25 years, our in-house construction quality has been revered, standing testament to our tireless efforts and unwavering dedication to building high-quality homes and prosperous communities. As we unveil our most exquisite project yet, we reaffirm our promise of striving for greatness and creating legacies that stand the test of time. Meraqui is our ode to the future, an impeccable addition to Gillco's legacy and a gift for generations to come.

THE ETHOS OF MERAQUI

Some names carry meaning. Meraqui carries a way of life. Inspired by the Greek philosophy of Meraki— the art of pouring one's soul, passion and creativity into everything one does, it is born of the belief that life, when approached with intention and devotion, becomes something extraordinary. The inclusion of Phi, drawn from the Greek alphabet, deepens this conviction as a nod to the golden ratio, the universal signature of harmony, balance, and timeless beauty. Meraqui does not merely inspire an address. It defines a standard.

A standard that is unprecedented and unheard of. It defines life, at its finest.

THE LOCATION

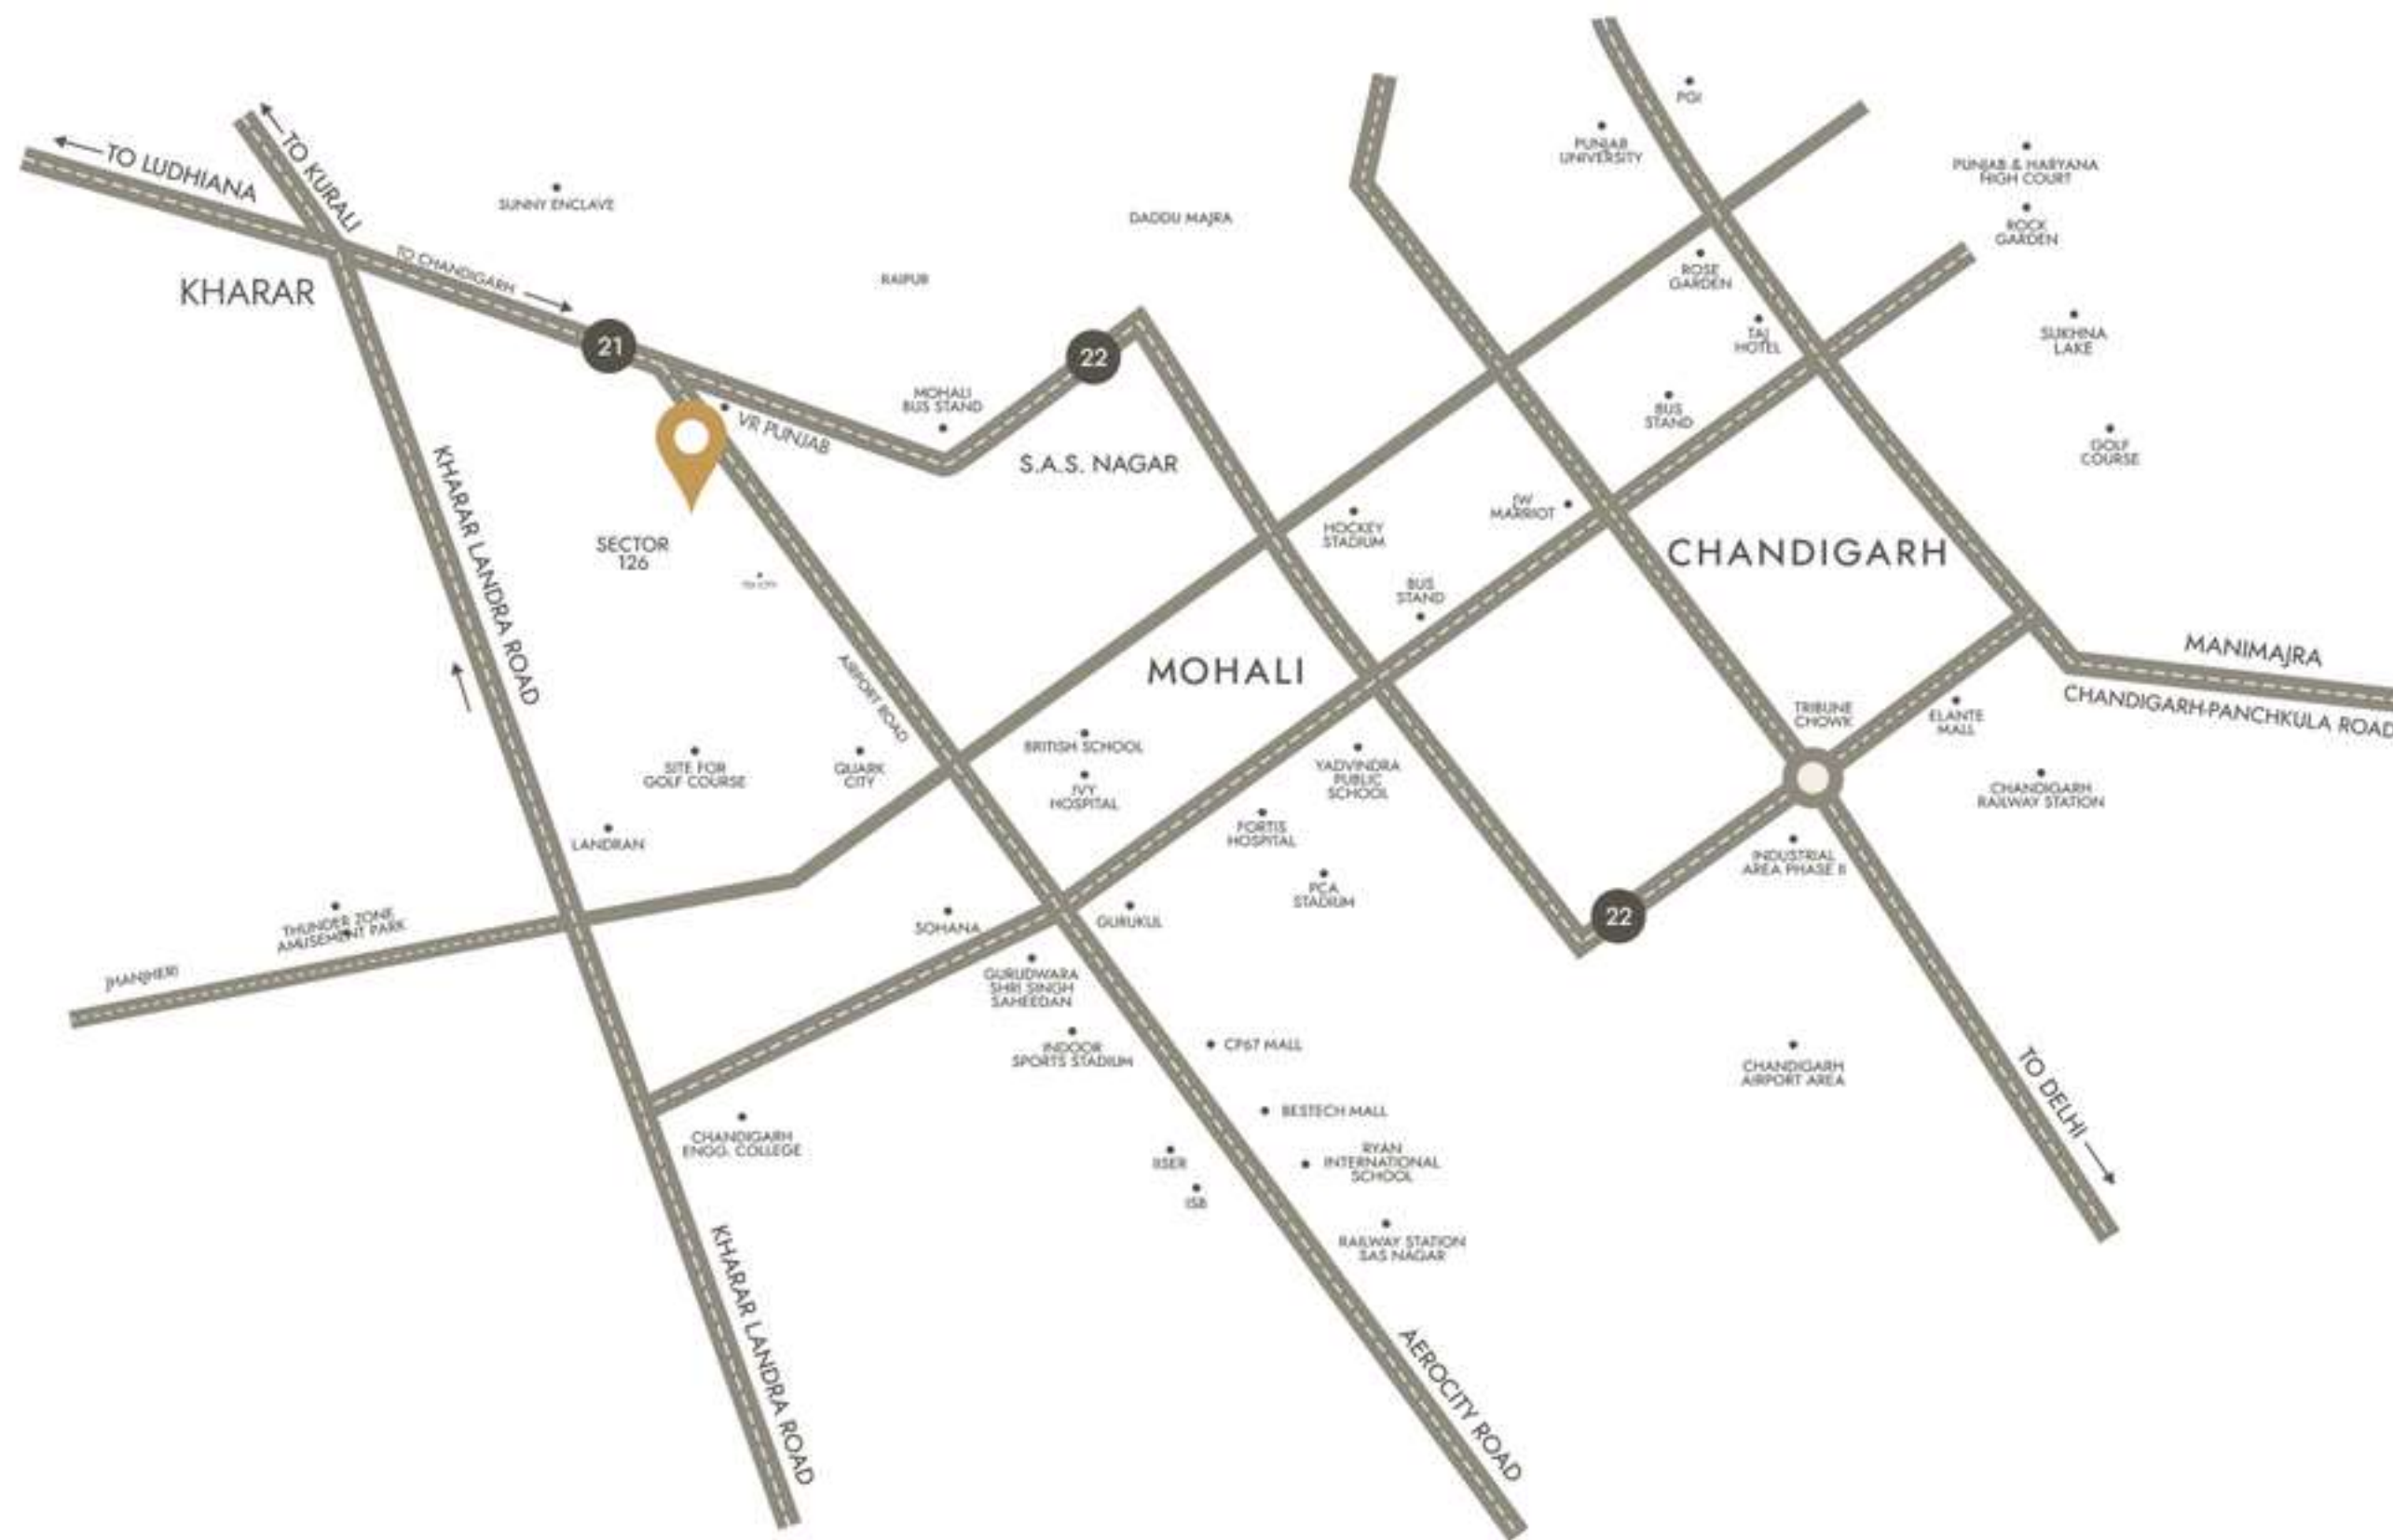

PR7 AIRPORT ROAD

MOHALI'S MOST PROMISING MILE

The defining axis of the Tricity region's most significant transformation, the Airport Road, ensures seamless connectivity across one of North India's fastest-rising urban centres. For Meraqui, this location is not a backdrop. It is a declaration of transcendence that begins at exactly the right address.

A SILHOUETTE

TIME ITSELF

Meraqui's extraordinary spirit has been brought to life by some of the finest minds in the business. An inspiring collection of 444 residences, generously divided amongst 6 towering edifices, Meraqui is a groundbreaking development shaped by craft, creativity and culture.
