We are Escon Primera

Delivering quality construction is the one thing that has been our cornerstone from the time we started.

We pride ourselves on being the best at taking on the biggest challenges and overcoming each one with excellence.

41 years and strong

Having built (wonderfully) everything from government offices to best-in-the-region apartments at Escon Arena, Malwa Developers have not just made a name for themselves, but have established themselves as a brand to reckon with. Known for their path-breaking endeavors in construction technologies, MIVAN is going to be their next big milestone.

21+

Acres of completely registered land bank

440+

Intricately designed world-class homes

17+

Floors that will stand the test of time

880+

Dedicated parking for utmost convenience

At Escon, you don't just get a home, you also get the assurance of having your home built by the most risk-free and credible developer of the region.

With the complete 21 Acres of land bank on which the project is being built registered in their name, Malwa Developers are the epitome of what a capable and trustworthy developer should be like. Not just that, every rupee being spent on the construction of your dream home and all others like yours is completely debt free. No loans. No personal debts.

Malwa Developers is a single-family-owned corporate firm that has already set a benchmark with its litigation and dispute-free track record for decades, thus ensuring that you, like many others, proudly claim to be an esteemed member of our ever-growing Escon family.

Holistic living, *what's that?*

Everyone dreams of a lifestyle that suits their stature but beyond luxuries, there's something more. A world where peace of mind is natural state of existence.

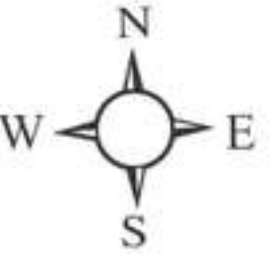

Connectivity, that inspires

Luxury is not just the amenities you enjoy within the comfort of your home but the convenience of having everything you might need close-by outside your home.

At Escon, you are placed right at the center of action, because total luxury is what we strive for.

Designed intricately to inculcate a plethora of amenities and features without disturbing the natural harmony of the space. With enough open space, you would never feel congested thanks to the awe-inspiring planning.

The Mivan Masterpiece

For the uninitiated, MIVAN construction is done using machine made aluminium structure which provides firm and precise formwork for the structure being built. The end result? A monolithic structure that can withstand the tests of time and nature.

This is a state-of-the-art method which comes with a plethora of advantages including
